AdvantAge Initiative Presents Lady Bunny

AdvantAge Initiative helps community-based organizations, foundations, and local and state governments measure their communities' "aging friendliness" and prepare for a growing older adult population that wishes to

"age in place."

Lady Bunny has been aging in place in NYC for decades. I would make fun of her age except I've known her going on 40 years! (She was my baby sitter..)

Whether you're old enough to get all the references or not, you can see her some 20 odd costume changes anyway and hear Bunion's version of the **Sondheim** Classic, *I'm Still Here*.

Watch.
